

# SIEMENS

## Down-time to Up-time in no time

Introducing our first local repair center for SIPART PS2 valve positioner.

In our endeavour to come closer to our customers and give them improved services, we have built a state of the art repair center for SIPART PS2 positioner.

This local repair center shall facilitate in depth root-cause analysis of failures and provide local repair support that will save our customer's time and money.

### Highlights:

- A fully automated testing facility – using Siemens Programmable Logic Controller
- Highly trained and efficient personnel to carry out repairs
- In-depth root cause analysis of failure
- Multiple positioners can be repaired at the same time
- Post repair testing to ensure smooth functionality
- Turnaround time: One day from the receipt of a faulty positioner
- Database of repaired positioners will be maintained to track repeat failures

For further information on repair quotations and after sales service support, please contact us on our Process Instrumentation dedicated toll-free number: 1800 208 3000 or ✉ [pisupport.in@siemens.com](mailto:pisupport.in@siemens.com)
